# CEO'S MESSAGE

The Prophet Muhammad (PBUP) advised not to underestimate any act of kindness, emphasizing the power of a smiling face. Human Relief International (HRI), though a small organization, holds the potential to create a lasting impact on the nation.

By following the teachings of spending wealth on those in need, HRI's volunteer programs contribute to both emotional and material improvements in the social infrastructure.

The CEO believes that individuals facing challenges today can become future leaders, their vulnerabilities bringing out innate abilities. In essence, HRI represents a simple yet powerful investment in creating a better, more resourceful world.
